"Astrology is a science in itself. It taught me many things and I am greatly indebted to it." ~ Albert Einstein

Astrocartography your personal world meridian lines, for travel, where to live and to bring good energy to your home:

World view Non Local Space

Australia Local Space Meridians

How to read your Astrocartography Map

First locate where you live and look to see if there is a symbol of a planet or meridian line running through, also view the area surrounding (approx. 250km / 124 miles).

Locate a place you've lived or travelled to. Do you have energy lines there? How did you feel in this place?

Your local space lines are from where you are born – I have turned off your local space lines for your world view as it is quite difficult to read otherwise.

Your sun shows where you should be living, working or gravitating towards. You can feel 'at home' in this location. Barack Obama has a strong sun line running through Washington DC on his astrocartography map.

You can also tune into the energy of the place by its ruling energy and governing sign.

Sun ☉ governed by ♌ Leo the lion – representing creativity, providing and being seen.

Your sun's meridian line is a good place to be living or working – you'll feel at home here. Positive vibes will bloom, leading to happiness and progress. Any latent creative talent will emerge. Good health and increased vitality will be encouraged by the atmosphere. An inner glowing feeling will emerge being in the sun's energy, you'll feel a renewed sense of joy when arriving.

Under the sun's meridian you'll experience enhanced relationships with locals, along with increased popularity however an effort must be made to develop new contacts and friendships especially if you're shy or introverted.

There are good opportunities to be found, excellent for career development. Confidence within your work can increase under the sun. Prosperity is enhanced.

Moon ☾ governed by ♋ Cancer the crab – emotional connections and family.

Living or travelling under the moon's energy will increase your emotions and intuition. There is evidence to show you will either feel this place is your home or the opposite! It's advised to spend time here before settling.

Care is needed with emotions whilst living/working/travelling under the moon lines energy (especially when it comes to partners, family and children). If working under the moon line energy it's likely you will be put in charge of a large group of people.

It can certainly feel like home here, once settled you probably won't want to leave. It's a good place for a family reunion or self-catering holiday (like camping or air bnb). Home and family often take precedence over career under the moon's energy so could also be a good place to retire.

Mercury ☿ governed by ♊ Gemini the twins and ♍ Virgo the goddess of agriculture – representing change, being of service and connections.

You'll be keen to get out and about and make as many new contacts and friendships under the energy of the winged messenger. Mercury's restlessness must be countered which could

mean settling down can be difficult. Your mind will be incredibly active here. You will feel the need to communicate and travel around this location.

This is a fun place to be to bring out your extraverted side! This is the perfect location for anyone wanting to develop or express their communication skills – work in the media, writing, teaching, speaking, marketing and travel are all highly favoured.

You may find yourself changing homes under this location, or changing the interiors. Working from home would be prosperous under Mercury's energy line.

Venus ♀ governed by ♉ Taurus the bull and ♎ Libra the scales of justice – representing beauty.

You'll develop a new beautiful "bloom" under the energy of Venus which can make you very attractive to others. Life can feel more relaxed and enjoyable here. Your social life may take precedence over your career. If unattached you may well find your partner or soulmate under the energy of Venus. Business partnerships can be prosperous.

The energy of Venus is a wonderful location for a honeymoon or romantic holiday. Fashion, design and beauty businesses can prosper here – there can however be a tendency to be too laid back, driven organised people will do well.

There will be plenty of opportunity to create a beautiful home in this location. You may feel more extravagant living or travelling under the energy of Venus so some restraint will be necessary if you're wanting to save money.

Mars ♂ governed by ♈ Aries the ram – independent and leading the way.

Beware of taking impulsive action when moving under the location of your Mars planet or meridian line. Initiative is good however care must be taken not to force your opinions onto others. If moving to a country where the locals are laid back, challenges must be accepted however with considerable tact. Be mindful of asking too much of partners here as you're in the energy of wanting to push forward.

This could also be a good location to reside after a breakup with the strong energy used to positively build a new future with new people.

Your career can move forward with lightning speed. A pioneering spirit with a sense of adventure will be appreciated. Care is needed in your enthusiasm to move forward – ensuring your partner / family are listened to. Not a great place for a relaxing family holiday – adventure and sports will go down well though.

Jupiter ♃ governed by ♐ Sagittarius half human half horse centaur – the philosopher and traveller.

The great expectation of living or traveling under the energy of (lucky) Jupiter is usually lived up to, however care is needed to make sure there's not excessive optimism. You will find room for intellectual and mental expansion here.

A wonderful location for retirement with the energy ripe to focus on what you've always wanted to do. Literary or philosophical publications can also make excellent progress.

Saturn ♄ governed by ♄ Capricorn the goat – representing executive energy and moving through limitations.

If you are prepared to work long and hard in a very disciplined way – perhaps for very little money, the experience could well pay off in the long term and bring considerable prestige. Challenges would have to be accepted without question.

Your personal and business relationships are likely to be stressful in this location and maybe cause setbacks and problems. If you can overcome with slow steady steps, progress is likely to be made.

A heavy burden of responsibility is very likely living under Saturn’s energy line. This can result in the achievement of a high powered yet lonely person. Your career will likely dominate life more than usual. If moving because of family problems, they will have to be met head on.

A sense of duty will be called for however you won’t regret personal sacrifices, going on to enjoy peace and happiness.

Uranus ♃ governed by ♒ Aquarius the water bearer (a dichotomy and air sign) - the freedom seeker, higher intelligence and mystical healer.

If you’re thinking of moving under Uranus’ energy you’ll probably feel and act differently than usual and enjoy a new lease on life. New extreme reactions to the location could be a considerable source of trouble. If this is the case remember “*when in Rome do as the Roman’s do!*” and avoid making attempts to challenge the status quo.

You can find yourself making relationships and friendships with people you find quite different, dynamic and exciting. Caution should be exercised before rushing in as you could get more than you bargained for. Career opportunities can seem new and exciting however before moving here long term stay for a test period. Sudden unexpected changes could harm career progress, coming like a “bolt out of the blue”. If you do choose to move here keep your options open / don’t burn your bridges until you’re 100% it’s the right move.

The main attraction of living under the energy of your Uranus line is that it probably offers a new and different lifestyle so a fresh start can be made. It may however not be what you expected!

Neptune ♆ governed by ♓ Pisces – swimming between fantasy and reality with deep intuition.

You will no doubt adore this location when first arriving. You will find it beautiful and imagine life will be easy and relaxed under the influence of Neptune (master of illusions and god of the sea). It’s important you keep reality in check as you’re likely to look at your environment and life with rose tinted glasses. Moving under Neptune’s energy line without a thorough investigation can cause disappointments and confusion.

You’ll meet likeminded friends, potential lovers and partners under Neptune. If you’re on an ‘Eat, Pray, Love’ quest with a different lifestyle and spiritual community you’ll find happiness here. Holiday romances are more likely to happen yet unlikely to last.

If you're looking to take up a career under your Neptune energy meridian line, make sure you know exactly what's expected and when. Working out the practical details is essential – for example how much you'll be paid and when. Signed contracts are vital to make sure everything is above board. For example, if you're a young person in the theatre or entertainment business under Neptune be especially careful.

Neptune meridian line energy is the perfect place to get away from it all. It's also good for a timeshare, make sure contract details are in order first. If your home is here, do what you can to make it feel really peaceful.

Pluto ♇ governed by ♏ Scorpio representing power, sex, money and rebirth.

Moving under the energy of your Pluto meridian line will give you additional inner strength, the need to pursue and deeper self-analysis. In some respects, the locals could be somewhat in awe of their new resident as they will feel your inner power.

Entering into a new business commitment you may find yourself working with tough business colleagues or partners where you'll need to stand your ground and hold strong boundaries to move forward. Emotions will be heightened and your sex life enhanced.

A career in big business and power struggles will flourish. You may find yourself called to take over, just as when Mars is on the line, ruthlessness must be avoided at all costs.

An element of soul searching will occur, which will have to be worked through before you can feel reborn or at least ready to face life from a fresh perspective.

Chiron ♄ (looks like a key) governed by Virgo representing healing and being of service.

Moving under the meridian line or planet of Chiron could cause considerable problems for you with unexpected developments perhaps leading to extreme personal changes. There will almost certainly be problems with partnerships here.

It would be best to know the person really well ([for example through their astrology and numerology charts](#)) before starting a new business partnership in this location. Emotional stress can build up and a lack of sense of humour could be damaging.

Teaching and healing can prosper under Chiron's energy, however this will not occur without a certain amount of upheaval and unexpected developments. Chiron is great for spiritual retreats, and can bring spiritual breakthroughs.

North Node ♁ where you're headed to in life.

The North Node in our own astrology charts is where we're moving to in life. You will feel connected emotionally and spiritually under the meridian line energy of your North Node. This is a good location for the development of meaningful relationships.

Your instincts will be enhanced to make the right decisions leading to success.

You'll make progress in your career, with ambitions gradually achieved. Living under the North Node should be a comfortable experience. You'll feel it's just the right place to be and in control.

INTRODUCTION

This report has been written to introduce you to the concepts of astrology and help you get started with your natal chart. Astrology is a complex and meaningful science which takes years to study and apply successfully; however, we would like to whet your appetite with this report, and encourage you to deepen your understanding through other means.

Most planets move quite slowly, so we can be sure that they were in a particular sign at your time of birth, regardless of the actual time of day. However, in cases where a planet did change sign during your day of birth, you will see two paragraphs describing that planet - one for the sign that planet was in in the first part of the day, and one for the sign that planet was in for the last part of the day. In these cases, you should read both paragraphs to determine which one describes you better, and this might then help you determine which part of the day your birth actually occurred in.

Astrology is a study of the connection between planets and life on Earth. It is based on a concept that energy patterns form between other planets and Earth; and that these energies affect our lives as individuals and communities.

An astrological chart, also known as a horoscope, natal chart, or birth chart, records the relationship between the planets and the signs of the Zodiac. Charts can be calculated for the birth of a person, a community, an event or anything that seems momentous. The horoscope is as individual and unique as your fingerprint.

LIFE GOALS

The Sun

If you would hit the mark, you must aim a little above it; Every arrow that flies feels the attraction of earth. Longfellow, Elegiac Verse 1880.

Just as the Sun is the centre of the earth's Solar System, so does the Sun play a vital role in your life on earth. Your life goals are linked to your Sun - its Zodiac Sign and its position in your chart. Contrary to popular belief, the Sun isn't the only planet to be considered in a person's chart, but it is an important component. The Sun gives you an indication of how you can shine in your life. You will feel truly alive when you're living the traits indicated by your Sun. Therefore it's likely that you will spend much of your life on a journey to self discovery, aiming to incorporate these traits into your life. Understanding the energy of your Sun is a good starting point to understanding yourself and your purpose in life.

The Sun is in the 10th House

Your Sun is in the 10th House of your Birth Chart meaning that you're the sort of person who likes to make your mark on the world, in particular through your profession. Depending on other influences in your chart you're likely to be born to parents of good standing in the community. From this favourable start in life, you're likely to steadily improve on your status. Success usually comes easily in whatever business or profession that you choose. People in high places are likely to look on you with favour, helping you further your ambitions.

You're also likely to rise to a prominent position in society, perhaps even in government office. You've high moral standards, which you apply to yourself and to other people. Fortunately your vitality and health are usually good and therefore you're well able to achieve your goals. You're likely to carefully consider your proposed primary partner, before entering into a commitment which affects your standing in the community. As a result, depending on other influences in your chart, you're likely to benefit through your primary partnership. Ancient astrologers consider that the Sun is well-placed in the angular 10th House of a chart, and therefore, you're likely to be successful in achieving your goals.

The Sun is in Scorpio

Your Sun is in the Zodiac Sign of Scorpio indicating that you're a passionate and intense individual, who likes to experience life at a very deep level. None of the superficial skating over life's surface for you. You like to penetrate life's mysteries and the intricacies of personal relationships. You demand an intimacy and honesty in your life that can be challenging to others.

In fact, you're an excellent counsellor as you're insightful and not frightened of tackling the minefield of emotions which surround subjects such as death, sexuality and metaphysical experiences. Ironically while you demand soul bearing from others, there is a secretive side of yourself, which means that you may be somewhat of a mystery to those around you. Scorpio is a Water Sign which means that you do have a strong emotional nature, which if violated can spark the scorpion in you. You can freeze out loved ones if you believe that you have been wronged. Coming to terms with this side of your nature is one of your challenges in life. Fortunately, you're also resourceful, well able to find what is needed to survive and thrive. This is particularly true in financial matters, as long you trust your instincts and trust the right people. You learn to know the right place to search for information, or the right person to approach.

Sun is Trine Moon

This is a lovely aspect to have in your Birth Chart as it gives you a helping hand in life from a young age. In some ways you are charmed. When the Sun is making a positive aspect to the Moon, this means that you're likely to succeed in your life through promotion, prosperity, and help from powerful people. You're also likely to gain employment easily, and earn the respect of other people. Your health and vitality is good, helping you achieve your goals. You're attractive to other people, as they are intrigued by your personality. You are confident, and yet you are not egotistical. You attract people who help raise your position in society and assist you in achieving your goals.

Sun is Conjunct Mercury

What a lively mind you have! This combination means that you're curious, keen to learn new tricks and meet new people whenever possible. People are drawn to your interest and willingness to join in on any new activity. What a blessing you are when your friends and family ask you to join in. You are likely to succeed in life through your quick wit and business acumen. You have strong opinions and are likely to be an independent thinker. You can be relied on to give your opinion if others ask for advice.

You're studious, learning new subjects with ease, and are particularly adept in the scientific and mathematical fields. If the intellect is not your forte, then hand and eye co-ordination is likely to be. You are a great juggler, either literally or with the ability to multi-task. You need to be wary of seeking stimulation at all costs, with the end result meaning that you fail to complete a task.

You could be the proverbial "Jack or Jill of all trades, master/mistress of none". However, if you develop your ability to make choices and master some skills then you are dexterous and able to achieve whatever you set your mind to.

Sun is Conjunct Mars

The Sun and the planet Mars come into contact in your chart meaning that you're hard working and energetic, able to tackle most of life's challenges with confidence and a positive attitude. A natural-born leader, you prefer taking the initiative, rather than sitting back and waiting for things to happen. You're courageous and like to take a few risks in life, particularly ones that satisfy your sense of adventure and provide an outlet for your boundless energy.

Self-motivation comes easily and you find it difficult to accept the motto that "all good things come to those who wait". You prefer to tackle a project or problem head on rather than wait around for a solution. While confidence and initiative are positive traits, you do need to exercise some patience and caution. Knowing when to take risks and when to wait are both vital to a successful outcome in any project. As long as you find positive outlets for your enterprising nature, and don't act too impulsively you're likely to stride forth and succeed in achieving your life goals.

Sun is Opposite Jupiter

The Sun is making contact with the planet Jupiter in your Birth Chart indicating that you've the ability to achieve your life goals, but the path isn't always easy. On the positive side you are optimistic and enthusiastic and are likely to encounter good fortune at some stage during your life. It's possible that a father or grandfather figure gives you a helping hand towards achieving your goals. However, you've a tendency to jeopardise your own success through being grandiose in your goals and plans. You've an overly-optimistic and idealistic approach to life, which prevents you from making a realistic appraisal of most situations.

You can be restless, needing excitement and adventure, finding it difficult to commit to a course of action or to settle in one place. Depending on other influences in your chart you're the typical ideas person who has difficulty putting in the hard work needed to achieve a finished product. Your challenge is to find a balance between stability and adventure. "Moderation in all things" could be a good motto to remind you to curb your excesses. Once you've learned self-restraint then you're able to reach all of your goals.

Sun is Square Saturn

The Sun is making a difficult contact with the planet Saturn in your chart indicating that you have to face some hardships before achieving your life goals. It's possible that you had a difficult childhood, experiencing either emotional or financial troubles. Perhaps your father, or a father figure, was an imposing and restrictive force in your life. As a child you may have felt imprisoned, unable to communicate your innermost thoughts and feelings.

You may have been frightened to venture forth in the world. As an adult you may still have difficulty expressing yourself and at times feel that external circumstances are still somewhat onerous. You're fearful, worrying about the outcome of decisions and actions. On a positive note childhood difficulties can become the basis for adult wisdom, particularly if you're able to overcome your fears. As you grow older you learn that your natural reserve stands you in good stead, giving you the ability to stand back and assess situations. Your confidence grows enabling you to achieve your goals through attention to detail and hard work.

Jupiter

The planet Jupiter tells you about your goals in life, in particular the areas in which you are likely to succeed.

Jupiter is the planet of expansion, abundance and wisdom. Ancient astrologers called Jupiter the Great Benefic and believed that it bestowed riches and rewards on individuals. This planet was associated with Kings, Lords and others in high places.

Jupiter is associated with being plentiful and benevolent. It is tolerant and expansive. The first of the social planets, Jupiter seeks insight through knowledge. This is the planet of exploration through study, travel or higher learning. It is the getting of wisdom.

Jupiter is in the 5th House

Jupiter is in the 5th House of your chart signifying what a fun-loving person you are. You are always on the look-out for new avenues of pleasure and amusement. You're a real party person. This doesn't necessarily mean that you create a lot of noise and demand everyone's attention, but that you do like to mingle and enjoy yourself. Whether it be small or large gatherings, you like to socialise. You rarely lack for companions, because other people are inspired by your sense of fun and seek your company. Life can become quite full with outings to the theatre, social functions and places of amusement.

You may also enjoy dabbling in gambling games. As long as it's only dabbling then you're likely to have a lot of fun and make some money, but you need to set limits otherwise you're in danger of going overboard. Depending on other aspects of your Birth Chart, you may find your social life is so full that you sometimes crave for a little quiet time! Mostly though you delight in your companions and friends. In particular you enjoy romantic love, and like to become involved in love affairs. When you decide that you're ready to settle down with one partner, then you are likely to be attracted to someone of good professional and social standing. Children are also a blessing in your life. They too respond to your fun-loving nature. You may have many of your own children, or it could be that you're surrounded by other people's. You can always think of some activity to amuse the children of friends and relatives. You may even choose teaching as a profession.

Jupiter is in Taurus

You've the planet Jupiter in the Zodiac Sign of Taurus in your Birth Chart indicating that "success comes to those who wait" could be a good motto for you. This is because you like to take your time and build up your resources slowly and surely. You're a dignified person who realises the value of planning ahead and working towards a goal. Persistence pays off and material wealth is often the result.

You're a peaceful person, more likely to be seeking security through expanding your financial resources and property rather than selling everything and travelling the world. It's not that you don't like to travel, but simply that you're a little stuck in your ways and prefer to travel for a purpose. Adventure and fun can just as readily be found on the home front as far as you're concerned. It would also be fair to say that you're somewhat attached to a comfortable life, which you easily build for yourself. Reserved by nature you prefer to travel along known pathways rather than venture into new and exciting areas. At times you can also be a little over-indulgent, but then you can usually afford to be.

You're also like to have fixed religious ideas, whether they be traditional or unorthodox. It's not that you're narrow-minded, but rather than you adhere to a set of beliefs which can be your guide through life. You're interested in practical spirituality. In other words you believe that it's important to incorporate your religious or spiritual ideals into everyday life. "Actions speak louder than words" may be an appropriate adage for your personal beliefs. For this reason you could also become a patron of a group or organisations.

Jupiter is Sesquisquare Pluto

The planets Jupiter and Pluto are making a difficult aspect in your Birth Chart indicating that you've some difficulty achieving your life goals, but you will get to where you want in the end. The problem is that you reject the usual paths to success, believing that you've a better way of doing things.

Your attempts to change the rules, or to try to make others agree with your insights, are sincere, but intrusive. As a result you often land yourself in troublesome situations, which can lead to disillusionment and distract you from your purpose. This can dent your confidence. You range from over confidence to completely lacking in confidence. The truth lies somewhere in between. Society has rules to run itself efficiently, and these can be to your benefit rather than detriment. Once you accept your own and society's limitations then you can achieve your objectives.

HOME

The Moon

Perverse and foolish oft I strayed, But yet in love he sought me, And on his shoulder gently laid, And home, rejoicing, brought me.

Hymn, *The King of love my Shepherd* is 1868.

Astrologers from different schools of thought allocate varying meanings to the Moon in a Birth Chart. Ancient astrologers say that the Moon changes its nature according to its phases, and merely passes on impressions from other planets rather than directly influencing a person's life. However, modern astrologers tell us that the Moon depicts a person's roots, our home and family. They say the Moon also shows our habitual nature or subconscious patterns of behaviour which stand in the way of achieving our life goals. While the Moon can show us our strengths, it can also depict our weaknesses which need to be overcome in order to be successful in life.

The Moon is in the 6th House

Lifestyle matters are prominent in your life. This includes health, well-being, diet, co-workers, your work place, your household organisation and even small pets. You are keen to enjoy life on a day to day basis, appreciating all of the little things. The Moon is placed in the 6th House of your Birth Chart suggesting also that health - intellectual, emotional or the physical component - is a major focus of your life.

Other components of your Birth Chart may indicate whether intellectual, emotional and/or physical health is the focus. Whatever the focus your own health can be a constant source of pre-occupation forcing you to constantly adjust your daily commitments and to reassess your priorities in life. Sometimes it's other people's health that concerns you, particularly a woman close to your heart. It's possible that you suffered from ill health early in your life, or that you suffered emotional or intellectual setbacks in early childhood.

Perhaps you're still bearing the brunt of childhood experiences. It's also possible that you've learnt a great deal about the relationship between the mind and the body. You may want to share your own discoveries about medical treatments and the healing process with other people, possibly through your work.

Your health may disrupt your daily routine, or perhaps you've learnt to adapt your lifestyle. Either way your daily life is constantly undergoing change, routines being disrupted by unforeseen circumstances. Finding a way to serve your fellow humans may be more important, more so than shining in your own right. Therefore, you're likely to choose an occupation whereby you can be of service to other people.

The Moon is in Cancer

With the Moon in the Sign of Cancer you're the homebody of the Zodiac, enjoying the comfort of being surrounded by loved ones in your own home. You enjoy the feeling of belonging to a tribe, be it your own family or a tribe of friends. You're an understanding person, with strong feelings of sympathy. You also enjoy looking after others either through cooking them something tasty or simply lending an ear to their troubles.

For this reason you are often the person to whom others turn in a crisis. Friends and family can often be found in your kitchen with a comforting cuppa. In fact have you noticed how you also have a tendency to attract stray animals? Loyalty features strongly in your life, although you need to take care that you bestow your loyalty with some discrimination. Sometimes strong emotions, which seem true at the time, can be seen to be misplaced with hindsight. Depending on other aspects in your chart, it's likely that you'll feel a strong emotional bond with your mother. You may have difficulty in breaking this bond, and therefore in leaving home. Astrologically speaking, the Moon is in its own rulership in Cancer, emphasising the benefits of emotional satisfaction through caring for others.

Moon is Trine Mars

The Moon is making an aspect to Mars in your chart indicating that your home life is active and boisterous, rather than a peaceful environment. Fortunately, you're an impulsive and emotional person, who prefers action to becoming bored by inactivity. You're likely to feel more comfortable when faced with a challenge. For this reason you may enjoy working around the house or working from home. It's possible that your need for an active home life stems from your childhood home environment, which was busy and boisterous.

Perhaps your mother, or a strong woman in your household, was vivacious and dynamic, possibly even fiery. In some cases male members of the family can display these traits. Either way at a young age you learnt how to enjoy a spirited home life, which you've carried into your adult life.

Moon is Sextile Jupiter

The Moon is making a positive aspect to the beneficial planet Jupiter in your Birth Chart suggesting that you enjoy your home and family life. This is a favourable aspect for health, wealth and family life. Depending on other influences in your Birth Chart you're likely to enjoy good fortune with your home, and any property investments. It's possible that you've a large family, enjoying connections with close and extended family members. You've a generous and expansive nature and an easy-going, philosophical approach to life.

This makes your home a very hospitable environment. You enjoy catering for friends and family in your home, and may live in a large home or in spacious surroundings. Your optimistic view on life means that you're usually rewarded with many visitors. Family relationships are favourable, particularly with the women. It's likely that your good fortune has been influenced by your positive relationship with your mother, or an important female member of your family.

You have fond memories of a warm and loving mother and want to share your good fortune with others. Perhaps there's a benevolent matriarch in the family tree. In some cases it's possible that your childhood relationship with your mother wasn't a positive experience. In this case you may be determined, as an adult, to be everything that your mother wasn't. Either way you are likely to benefit through your relationships with family members. You may also benefit through shared religious or spiritual beliefs.

Moon is Sesquisquare Neptune

The Moon is making a difficult aspect to the planet Neptune in your Birth Chart indicating that you've a sensitive nature, and are prone to spending long periods of time in solitude in the safety of your home.

Your home needs to be your haven from the world because you feel overwhelmed by the harsh realities of the world, and you need to shut away. If this isn't possible then it's likely that you'll be distressed. Depending on other influences in your chart it's possible that you spend long periods living in a fantasy world. Family members may have stories about your daydreaming ways as a child, which continue well into adulthood. It's also possible that your loved ones feel the need to bring you back down to earth, believing that this will help you cope with the world.

Nevertheless you have learned to trust your own instincts, telling you of a need to escape somewhere to dream, even if it's only one room. In this case a room with a beautiful view would definitely appeal to your aesthetic nature. It's likely that your relationship with your mother, grandmother, or an important woman, has played a key role in your life, positively or negatively. On the negative side it's possible that this mother figure demanded that you ignore your sensitive nature, turning your back on your artistic and spiritual gifts. On the other hand perhaps she cosseted you as a child and adolescent, fanning your unrealistic view of the world. Another scenario could have been that your mother was unwell, or regularly adopted a victim-like approach to life, which forced you into the role of caretaker at a young age.

Whatever the scenario in your childhood, the outcome is likely to be your own struggle to face your responsibilities while still finding time for your spiritual, artistic, or contemplative needs. It's possible that this same woman, or another woman, could have encouraged you to develop the imaginative side of your nature.

Perhaps this woman had artistic or spiritual gifts, or encouraged your own talents. Whatever the scenario, it's likely that you've an idealised or distorted picture in your mind of this woman, which affects your adult relationships with your loved ones. Your lesson is to learn to balance your needs for artistry, spiritual pursuits or moments of quiet contemplation with the practical, and very-real,

demands of the mundane. This is when you are most likely to appreciate the soothing nature of your home. Your house may also be a restful haven for your loved ones, because you've a flair for creating a peaceful environment. You've the ability to listen with sensitivity to other people's problems and plans, or to create a beautiful environment with artistic ornaments, soothing music and indoor plants and flowers. Perhaps you also have artistic talents, which can be displayed in your home. You may find a great sense of satisfaction in living close to water, or surrounded by nature.

Chiron is Opposite Midheaven

Early childhood is not always easy with this placement of Chiron. Your family life does not support your true self. This may be linked to your relationship with your father, rather than your mother. Perhaps your father was missing in some way? You are likely to repeat this pattern until you can find a place in which you truly belong, somewhere deep inside yourself that feels safe. Once this occurs then you can form a home, and family environment, that is secure and loving. You are likely to then be a loving and healing presence in your family.

EDUCATION AND COMMUNICATION

Mercury

There is no such whetstone, to sharpen a good wit and encourage a will to learning, as is praise. Roger Ascham, *The Schoolmaster* 1570.

Our academic schooling and learning through life experience are linked to the planet Mercury. This planet stands for the intellect, common sense, cold reason, commerce and business. It tells us about our communication and learning habits and our modes of thinking.

Mercury is in the 10th House

The planet Mercury in the 10th House of your chart signifies that education plays a major role in your life, either as a student or a teacher. You're a bright, intelligent and capable person who is considered an asset to your workplace. On the whole it doesn't really matter what career path you choose. What is important is that your career choice offers intellectual stimulation.

You don't like to be bored. It's also possible that you juggle more than one job at a time, or that you're a contract worker preferring the stimulation of different environments to the security of one job and one workplace. You could be a successful business person, putting your organisational abilities to good use. You need only to beware of over-committing yourself in your eagerness to take on a variety of tasks.

Mercury is in Scorpio

The planet Mercury in the Zodiac Sign of Scorpio indicates that you're a resourceful person, adept at delving into the heart of matters. For this reason you're an excellent person to have around in a crisis. You know just the right people to call, and just the right resources to call on. You're also an empathetic listener, unafraid of confronting intimate problems. In fact you prefer to talk to people on a meaningful level, rather than communicate on a superficial level.

At social gatherings you can often be found in an intense conversation in the corner of a room, rather than taking part in the general social chat. Communications with you are intense. While you're good at listening to others, you can also have a tendency to be obsessed with your own problems. You're a worrier. You do best when you can turn your resourceful and probing mind into a project which requires concentration and research. A little intrigue would also be welcomed. You enjoy reading novels with an intricate and absorbing plot.

Mercury is Trine Moon

The planet Mercury is associated with the Moon in your chart indicating you've a quick wit, and a sharp and penetrating mind. Depending on other influences in your chart, you're likely to excel in any studies, but particularly in communications, media studies, research, and languages. You may also be adept at public speaking, because of your sharp mind, and your clear elocution.

Mercury is Conjunct Mars

The planets Mercury and Mars are making contact in your chart indicating that you've a razor-sharp mind and tongue, which you're not afraid of using. You're quick to grasp new ideas, and enjoy studying any subject that challenges your mind. You may have a keen interest in sports and military pursuits. You've good intellectual powers, and are witty, enthusiastic and ingenious. You're a forthright and powerful speaker, perhaps not realising the extent of the effect that your words have on other people. Others may react adversely to your feisty way of communicating, particularly if you fail to curb your tendency to speak first and think later.

On a positive note it's also possible that others appreciate your ability to speak your mind, particularly if you're fighting for a cause. You may become an advocate for individuals or groups of people, who are unable to stand up for themselves or who need a strong spokesperson. You're the right choice because you're perceptive, enjoy a thought-provoking discussion or argument, and are agile in most negotiations.

Mercury is Opposite Jupiter

The planet Mercury is making an opposing aspect to the planet Jupiter in your chart indicating that you're likely to encounter obstacles in your education. This could be for a number of reasons. Perhaps you've so many ideas and plans that you're not sure which ones to follow, and as a result never seem to get started. It's also possible that you've many unfinished projects, because your attention span is limited. Of course this all depends on other influences in your chart.

And the good news is that you learn a great deal from your mistakes, growing older and wiser with each passing year. As a result you're likely to overcome your obstacles, and achieve your goals, particularly in the areas of communication and education. It's also possible that you choose to communicate your experience through teaching, writing or public speaking.

RELATIONSHIPS

Venus

Let me not to the marriage of true minds Admit impediments. Love isn't love Which alters when it alteration finds.

Shakespeare *Sonnet 116*.

The planet Venus tells about love and relationships. It reveals the type of relationship we value, and what we are seeking from our most intimate relationship, as well as how we like to show our love. It answers questions such as, are we attracted to strong, sensual and intense relationships? Or do we prefer some freedom and independence? This planet also depicts how we like to relate to our environment and other people, not just our primary partner, and how much importance we place on money and resources.

Venus is in the 11th House

When the planet Venus is placed in the 11th House of your Birth Chart friendships are an important component of your life - a great source of satisfaction and pleasure. A popular person, you enjoy a wide variety of friends from all walks of life, who seem to take up a considerable amount of your time. Your friendships with women may be more prominent than those with men. At times you feel that you owe your success to your friends, and this is probably true.

Your friendships are beneficial, contributing to your happiness and helping you achieve your hopes and wishes. This may even involve financial gifts or favours. It's also possible that groups and clubs feature in your life. You enjoy belonging to a group of like-minded people, feeling supported by the relationships that are formed. This could involve you taking a prominent role in a group, or simply working quietly in the background. Either way you're particularly keen on becoming a member of a group with goals that benefit humanity.

Venus is in Sagittarius

With Venus in the Sign of Sagittarius you've a happy-go-lucky approach to your relationships, and yearn to share adventure with your partner, whether it be simply sharing adventurous ideas or taking off on a journey to another part of the world. Your motivation is to learn more about the world through your main relationships. In some cases your partner could be your teacher, perhaps even someone from a foreign country.

You do enjoy relating to foreigners, because they can teach you so much about yourself and life in general. If you can't continually be on the road, then you like to hear about other people's journeys. Your friends come from all walks of life and you're popular, so there are many friends. You're benevolent and loving in all of your relationships, ready to join in on others' adventures and experiencing genuine pleasure in their company. Your generous nature means that you often encourage others in their journey through life.

MOTIVATION

Mars

Dimidium facti qui coepit habet: sapere aude.

To have begun is half the job: be bold and be sensible. Horace, Epistles 65- 68BC.

Mars is the planet that tells us about our assertion and drive. It tells us what motivates us and what desires drive us most powerfully. Are we ambitious for professional power, or do we desire a meaningful relationship? Do we pursue our desires aggressively? Or do we sit back, lacking the confidence to achieve our ambitions? These are the types of questions answered by the qualities of the planet Mars in our chart.

Mars is in the 10th House

With Mars placed in the 10th House of your Birth Chart ambition drives many of your actions in life. You're an independent person with a strong will, who feels the need to pave your own way in life even if it involves a battle. You're not afraid to fight for your rights, particularly in your career. You crave autonomy and the freedom to pursue your own professional interests.

Ancient astrologers believe that the planet Mars becomes more powerful when placed in the angular 10th House of a Birth Chart, meaning that you're likely to make a strong impression on the world. The type of impression also depends largely on other influences in your Birth Chart.

Mars is in Scorpio

The planet Mars in the Sign of Scorpio indicates that you're the type of person who can be relied on to make sure that a task is finished, because you're resourceful and, once committed, quite tenacious. You're executive material and have the ambitions to match. You're also the type of person who likes to get to the bottom of matters in order to resolve problems. Sometimes this can also involve an interest in investigating the mysteries of the occult world.

You certainly don't like to have difficulties swept under the carpet, but prefer to bring things out in the open. This applies to both your work and your private life. You're a passionate person, and sometimes your life can resemble an emotional battlefield. Although this can be a bit overwhelming, mostly you like a sense of the dramatic in your life. At least it's preferable to boredom. On the whole you're strongly committed to those around you, but woe betide anyone who tries to stand in your way because you can be a vengeful opponent. You need to be cautious before going into battle with others because the planet Mars is considered to be powerful in the Sign of Scorpio and therefore while you may win, the outcome could be unpleasant.

Mars is Opposite Jupiter

The planets Mars and Jupiter are combining in your chart indicating that when you are young your hasty judgement can sometimes land you in hot water. You've plenty of motivation to achieve your goals, but lack proper judgement and discernment so that you miscalculate the amount of time and energy needed. As a young person you need to be less careless and impulsive, which can sometimes result in accidents which are a result of you rushing around and trying to achieve too much. The motto "you're your own worst enemy" could be one for you to reflect upon. Depending on other aspects in your chart you're also excessive in your generosity.

As you mature you need to develop self-discipline. Otherwise your impulsiveness may be an impediment to reaching your goals. As you learn to balance your excess energy you can achieve much. You're a lively and resourceful person, who delights in good health and keeping busy. Any course of action is entered into with confidence and determination to succeed, which you're likely to do despite the obstacles. You certainly know how to get yourself and other people motivated, and can make a good leader or manager. You may be particularly keen to travel, enjoying the stimulation of visiting other venues. You could direct your energy to achievement in sports, politics or foreign affairs. Once you have learnt to manage your resources you can achieve many of your goals.

CAREER AND AMBITIONS

Saturn

The road up and the road down are one and the same Heraclitus, Die Fragmente der Vorsokratiker c540-480BC.

The planet Saturn represents responsibility, boundaries and structure; structure that provides a positive framework within which we can build, or structure that limits our development and forces us to reassess our liabilities and assets. This planet is also linked with our ambitions, and how we approach the practical side of life. Saturn tells us about the traditions that have stood the test of time. This planet often represents the professional side of our lives, how we work to build what we need to survive.

Saturn is in the 7th House

The planet Saturn placed in the 7th House of your Birth Chart suggests that partnerships are an important component of your life, and perhaps your profession. Marriage is a serious commitment, not to be entered into lightly as far as you're concerned. You seek a partner who, like yourself, is faithful and steady, and wanting to build a home and start a family. Depending on other influences in your chart you're likely to be cautious at all stages of your relationship and aren't one to be swayed by the first throes of love. It's likely that you'll consider your partner's actions carefully letting time pass before you decide whether or not they have the right qualities to attract your commitment.

You may not marry at a young age. It's also possible that you marry someone from a different age group - someone younger who respects your values or someone older and able to appreciate your qualities. Your partner may own property, and be a respected member of the community. In some cases you may choose a partner who is too cold and stern, restricting your life. However, it's also possible that you choose a partner who holds you in high esteem, but has difficulty demonstrating his or her affections. Either way it's unlikely that your partner is demonstrative.

Saturn is in Leo

The planet Saturn in the Sign of Leo signifies that you take pride in your work, and have an ability to build personal authority. You've a strong will and are determined to succeed in your objectives, even if it means forgoing a few pleasures along the way. In fact you can be passionate about the projects in which you become involved. On the whole you're generous and can develop the ability to achieve your ambitions through thoughtfulness and by including the ideas and plans of other people. Your strong will-power and determination also help you overcome any obstacles strewn on your path.

Saturn is Trine Neptune

The favourable combination of the planets Saturn and Neptune indicate that you've the ability to be both practical and creative. If you have musical or artistic talent you have the self-discipline to make something of your gift. Whereas other people may give up in despair, you're likely to endure through long hours of practice in order to perfect your skills.

As a result you could make a career from your artistic talents, such as performing on stage, designing for a theatrical production, or teaching your craft. You've a good sense of values, and an innate sense of timing. Both of these traits stand you in good stead in your career ambitions. It's also possible that you've a firm set of spiritual beliefs which guides your choice of life direction. In some

cases you could enjoy a career directly connected with your spiritual beliefs.

The Midheaven

The Midheaven is one of the important angles in a Birth Chart and is also known by astrologers as the MC or Medium Coeli. This angle tells us of our public life, our profession and social status. In other words, how we are viewed by the public, how we want to be viewed by the public and what type of profession we are likely to choose. It's also important to note the house position of the ruling planet of your Midheaven for further information about your career as this can greatly influence the interpretation.

The Midheaven is in Libra

With a Midheaven in the Sign of Libra and ruled by the planet Venus, you're attracted to a profession that best utilises your social or artistic skills. You're charming and diplomatic in your professional life, and these skills will be prominent in whatever career path is chosen. This could be a profession which directly utilises your talents in the areas of diplomacy, design or beauty, such as working in fashion design, interior decorating, modelling, the arts, diplomatic circles, or public relations. Alternatively you could benefit indirectly by employing these skills in a different career.

This largely depends on other influences in your chart. Either way it's likely your profession reflects your need for harmony in the work environment, which is vital to you achieving your career goals. You like to create a harmonious working environment wherever you're employed, and enjoy good social relationships with your colleagues, in particular women. If your workplace lacks fellowship then you're likely to have difficulty accomplishing your tasks. Examples of famous people with the same Midheaven include American film actress Elizabeth Taylor, UK singer and actor Sir Bob Geldof, French fashion designer Coco Chanel, and American first lady Eleanor Roosevelt.

CREATIVITY AND ORIGINALITY

Uranus

The artist must be in his work as God is in creation, invisible and all-powerful; one must sense him everywhere but never see him.

Gustav Flaubert, *Correspondence* 1857-64.

The planet Uranus represents originality and unconventionality. This can be both the unusual and brilliant genius or the wilful rebel without a cause. This planet tells us the areas in which we break with convention, become innovative and experiment with new and exciting ways. In some circles of astrology Uranus represents the creative genius which comes directly via our soul or higher self.

Uranus is in the 10th House

The planet Uranus is in the 10th House of your Birth Chart suggesting that you enjoy an unconventional career through which you can contribute something original and worthwhile to society. You may feel restless within one profession, sometimes wanting a total change in life direction. It's likely that you'll experience different forms of employment during your lifetime, either through your own choice or through unexpected external circumstances. You may have problems with your superiors at work, because you're so determined to approach your career in your own individual and original manner. This can bring you credit because you're valued as a unique and creative employee. It can also create problems if your employers require conformity and team effort. You do not like to be constrained by rules, regulations and routine at work, preferring the freedom to pursue your own talents and ideas. You enjoy taking professional risks.

You may benefit from self-employment, giving you complete freedom to follow your own career path. It's also possible that you'll enjoy a career in an unusual or unorthodox field. Either way your career is likely to be strange and eventful, and you wouldn't have it any other way.

Uranus is in Scorpio

The planet Uranus was in the Sign of Scorpio from 1975 - 1981. It's important to note that Uranus spends a long time in each Sign, and therefore the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Uranus in your chart. Uranus in the Sign of Scorpio indicates that you belong to a generation which experiences highly-charged emotions and transformation in their lives. This generation holds many innovative ideas about change, and will need to call on these in order to transform the way in which the world uses its resources. This is the generation which will tackle the problems inherited from the past. It's likely that this generation will experience a world-wide upheaval during their lifetime.

Neptune

Neptune is the planet of creativity and spirituality. It represents both the bliss of spiritual attainment and the heights of creativity. This isn't personal spirituality and creativity which comes at the expense of others, but gifts which can benefit humanity. This planet also represents the confusion that can accompany the road to discovering when we are being selfish, as opposed to when we are generously thinking of how our gifts can benefit others.

Neptune is in the 11th House

The planet Neptune placed in the 11th House of your chart means that you're likely to be attracted to spiritual and humanitarian friends or groups. If you've positive influences in your chart then you're likely to form close unions with spiritual or artistic friends, and groups, which greatly enrich your life. You may also have an inspirational effect on your friends' lives, or act as inspirational catalyst in a group.

Neptune is in Sagittarius

The planet Neptune was in the Sign of Sagittarius from 1970 - 1984. It's important to note that Neptune takes about 164 years to make a complete cycle, spending about thirteen years in each Sign, and therefore the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Neptune in your chart. Neptune in the Sign of Sagittarius indicates that you belong to a generation possessing the gift of spiritual vision. You'll be able to help humanity focus on spiritual goals and become more expansive and inclusive of differing races and beliefs.

Neptune is Sextile Pluto

The planets Neptune and Pluto both move slowly through the Zodiac, and therefore any connection between the two planets affects Birth Charts for a short period of time. You were born in such a time. This combination in your chart means that you're interested in opportunities to bring about fundamental change to human values. You are aware of injustices in society and, depending on other influences in your chart, may prefer to fight against them rather than sit back and accept the ills of society. Your creative urges may be linked to politics, or expressing your political views through the arts or spiritual or charitable organisations.

CHALLENGES IN LIFE

Pluto

The spirit of self-help is the root of all genuine growth in the individual. Samuel Smiles, Self-Help 1859.

The planet Pluto challenges us to transform our lives by clearing out our old habits to make way for the new, more rewarding ways of living. The process isn't necessarily an easy one, as most of us cling tenaciously to the comfort offered by habitual patterns, and are rather scared of new paths. Pluto shows us in which areas of our lives we need to grow, and to a certain extent whether we're likely to find the process of growing painful or joyful.

Pluto is in the 9th House

The planet Pluto is in the 9th House of your Birth Chart indicating that study, religion and travel are challenging areas in your life. You probably have a powerful drive to discover higher meanings in life, but in some cases this placement of the planet Pluto can mean that you'll do all in your power to refuse to acknowledge a higher meaning.

Either way it's likely that orthodox religion has played a powerful role in your life. On the one hand traditional religion may have acted as a positive avenue for your search for meaning in life, but on the other hand you may react strongly to the dogmas of more conventional religions. You've a strong need to form your own opinions based on your own experience and studies, rather than adopt another person's creed.

Ironically you need to beware of becoming dogmatic in your personal philosophies. Depending on other influences in your chart it's also likely that academic study is a major challenge in your life. This could be that you intensely pursue your studies at an institute of higher learning, or it could be that you feel deeply disturbed by your lack of opportunities to pursue an academic course of study. Although you may have avoided travelling to foreign countries for part of your life, once you do travel, you're likely to be changed by the experience forever.

Pluto is in Libra

The planet Pluto was in the Sign of Libra from 1972 - 1984. It's important to note that Pluto takes about 248 years to make a complete cycle, spending 12 - 32 years in each Sign, and therefore, the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Pluto in your chart. Pluto in the Sign of Libra suggests that you belong to a generation concerned with global justice and transforming human relations. Your generation possesses the ability to see the necessity for change in personal and global relations.

Chiron

This can be a time of pain and a time of healing. On the one hand you may experience a painful situation which triggers memories of childhood wounds. This may even be a physical wound or illness. On the other you may have the chance to heal a painful situation which has haunted you for some time. Forgiveness, either of yourself or other's actions, may feature strongly during this time. Whatever the circumstances, this is a time when you come to a greater understanding of yourself and your purpose in the world, which in itself is a very healing experience. When you look back on this time you will also gain further insight into the bigger picture of your life, seeing with hindsight how this period contributed significantly to your life.

PURPOSE AND JOY

*He who binds to himself a joy
Doth the winged life destroy
But he who kisses the joy
as it flies*

Lives in Eternity's sunrise William Blake, *MS Note-book*.

A sense of purpose can help us overcome the most onerous difficulties in our lives, by taking the focus away from our failings and problems, and shining the light on our strengths and talents. By concentrating on our purpose we can distract ourselves from our troubles, and maintain the forward momentum of our lives. A sense of purpose can also lead to feelings of happiness and joy. Ancient astrologers believed that a person could either identify with their human body and human life, or could focus on a spiritual life. A rewarding spiritual life can help ease human pain and suffering, and inject joy into every day life. A sense of purpose can assist the process of transferring our identification from our human selves to the spiritual sides of our nature, and one of the greatest gifts of astrology is to help us determine our purpose.

The North Node

The North Node and South Node form an axis in astrology, which is said to represent one's destiny or spiritual quest in life. This axis is also linked with our purpose. The North Node points to a key lesson in our lives. It represents new experiences towards which we must aim during this life. We have already learnt the skills of its opposite point, the South Node, in the past. Now we must grow and stretch ourselves through the North Node.

The North Node is in the 10th House

Destiny plays a stronger role than usual in your family life. Many believe that family members are brought together by karmic ties. In your case this is emphasised because the balance between home and work is a key component in your life. Your North Node is in the 10th House of profession, while your South Node is in the opposite 4th House of home and family.

This is the axis that brings your private world and public life into focus. Your natural tendency might be to find it easier to be at work, out in the public world focusing on your professional path or a community role; however, this astrological statement also highlights the importance of your home and family.

Finding a balance between your private and public life is part of your destiny. At some point you may need to put your public life first. Hopefully your family understands. Your intuition is strong when it comes to the requirements of those in the professional arena. However, you also need to focus on your family.

The North Node is in Scorpio

Your nodal axis has the North Node in Scorpio and the South Node in the Sign of Taurus denoting that you're destined to incorporate change in your life. Your tendency is to want peace and quiet at all costs. You need to avoid weakening your spiritual strength by resisting change. Your challenge is to remain open to new possibilities. You may find that your life is transformed at some stage, stripping away the old to make way for the new.

North Node is Conjunct Uranus

Your destiny is linked with the discovery of new and exciting thoughts and concepts because of the combination of the North Node and the planet Uranus. You need to make sure that you do not seek excitement at all costs, but direct your energies wisely. In this way you'll achieve your purpose, which is likely to be linked with making a contribution to humanity.

South Node is Trine Venus

The South Node and the planet Venus are combining in your chart to suggest that relationships play a key role in either helping or preventing you from achieving your purpose. Perhaps you struggle to relate intimately with other people, or perhaps you need to learn independence in order to focus on your own objectives. Either way, a major part of your life is spent learning about personal relating skills so that you can achieve your mission.

The Ascendant

The Ascendant, or Rising Sign as it's sometimes called, is a key to discovering our purpose. Ancient astrologers believed that the Ascendant depicted our primary motivation as individuals. Some believed that it was one of the links to discovering what makes a person happy. When we're accomplishing our primary motivation then we're happy. The more modern Esoteric astrologers believe that this sensitive chart point reveals our soul's purpose. When we're carrying out our soul's purpose then we're joyful. They believe that acceptance of our purpose, or fate, can help us achieve success and satisfaction, and that meditation on the qualities of the Ascendant can help us focus on our life's purpose.

The Ascendant is in Aquarius

The Sign of Aquarius is considered "masculine" by Ancient astrologers suggesting that you're more likely to actively seek your purpose in life, taking the initiative rather than waiting until circumstances are comfortable. Aquarius is also a Fixed Sign denoting fixity of purpose, resolution, self-reliance and independence.

You're gregarious and unconventional, original and objective. You're independent, and yet your purpose and fate are strongly linked with your friends and associates, and groups of people. Your associates can either help or hinder you achieve your purpose, depending on how quickly you learn to assert yourself. You're usually a good judge of character, but need to learn to trust your instincts.

If you're not careful you can be easily distracted from your purpose by your friends and social engagements. Once you've learned to trust your own intuition, and to blend this with your highly-intelligent nature, then you can channel your resources into your true purpose. It's unlikely that you'll be interested in pursuing a demanding intimate relationship, preferring the single lifestyle. If other influences in your chart indicate that a relationship is important, then you're likely to seek one that gives you plenty of freedom to pursue your goals. Your purpose may be linked with humanitarian causes, or with scientific, mathematical or metaphysical groups or pursuits. It's also possible that you're interested in logical ideals.

In Esoteric astrology the Sign of Aquarius is linked with service to humanity, meaning that your purpose is to improve the conditions of humanity, through your own individual efforts. This could range from working as a cleaner, to working for an environmental or political group, to becoming a political leader. The onus is on you to find an avenue through which to serve the world. Your purpose is connected to humbly directing your services for the benefit of others.

CONCLUSION

It's been wonderful getting to know you through your Astrology Book of Life Jayne.

Astrology and numerology are two of the most accurate and powerful ways to learn about yourself, relationships and more. I hope you now see yourself in a new light.

With extra special love from your dear soul friend Lisa on your birthday ♡

With best wishes on your journey,
